WORK EXPERIENCE

Full Stack Intern – Buchanan County (Sep 2019-Present)

Making web applications with php, Html5, JavaScript, bootstrap4, and MS SQL Server.

Linux Admin and tutor – MWSU (May 2019-Dec 2019)

Making a Virtual machine for MWSU then distributing each computer in the computer science department.

EDUCATION

Missouri Western State University (August 2017-Present)

- Programming Team, this is a club where we go to a competition and try our best against the coding problems given, I've been part of this from spring 2018-present.
- As of Spring 2020 a 3.94 GPA
- Started an ACM Chapter
 - Vice President for a semester, then President.

Why I am good for you

I have been building applications for Buchanan County Government, and reworking/performing maintenance on their daily applications. I learn best through building in new environments and working towards accomplishing projects. I strive to work hard and adapt to changing circumstances in everyday work.
